

## A Message from the Prairie Valley Board of Education

February 13 to 17 is Teacher and Staff Appreciation Week. We are very fortunate to have wonderful staff members, and we look forward to this time of year as an opportunity to thank them for the work they do each day in their various roles.

Connecting as individuals and teams, everyone has a part in supporting our students and forms the whole picture that is Prairie Valley School Division. As we reported at our 2015-2016 Annual Meeting of Electors in January, our students continue to have strong results in academic achievement, and we thank our staff members, as well as our School Community Council (SCC) members, for their commitment and dedication not only to our students, but also to our communities and each other.

### Information Session: Cyber Awareness

The Board is again hosting an evening to provide SCCs and parents with an opportunity to learn. The evening will include a **dinner and meeting for SCC members** followed by a **cyber awareness information session open to parents**. There are two locations: **Wolseley High School on April 3 and Education Centre on April 4**. More details about the event will be sent to SCCs and parents in the coming weeks.

The Board would like to thank those who took the time to provide their comments online for the educational governance review. We await a decision by the Government of Saskatchewan and will be communicating to you about it when the time comes.

As the winter break approaches on February 20 to 24, the Board wishes parents, students and staff a peaceful and relaxing time with family. We hope that students and staff come back rejuvenated and ready for the second half of the school year.

Janet Kotylak  
Board Chair
