

# KIPLING SCHOOL

## RENOVATION AND CONSOLIDATION

## PHASE 1 FEEDBACK

Student circulation patterns are changed -  
where should bus drop-off and pick-up be located?

How will the elementary addition impact  
exterior supervision and security?

Which of the 'Reference Images' seem appropriate for Kipling?

Is it important that elementary student entrances  
and play areas be separated as shown?

Any comments on the additional washrooms for grades 1-6?

Any other comments you feel would provide useful input to the Phase 1 project?
