

Kelliher School

Extra-Curricular Contract

In order to participate in extra-curricular activities and remain part of the team/group, the following expectations must be met:

A. Attendance Conduct:

1. Attend school for the full day to be eligible for practice or a game/performance that evening. If I am going to be absent, I must inform the Office and the reason must be acceptable to the coach/advisor and Kelliher School Administration.
2. Attend practice to be eligible to play/participate. Missed practices will result in decreased play/performance time. The amount of lost time will be dependent upon the circumstances surrounding the absence(s).
3. Attend classes the day after a game/performance except in the case of injury where a doctor's note is presented and/or the coach/advisor is informed of the details of my injury related absence.

B. Curricular Conduct:

1. Maintain a satisfactory standing and effort in all my subject areas as my education comes first, athletics/aesthetics second.
2. If my classroom behavior is not acceptable, I will be ineligible to play/participate. Inappropriate classroom conduct may lead to a probation period when the student can make improvements and avoid being suspended from the team.
3. All decisions regarding imposed probationary periods or suspensions will be made in consultation between the teacher, the student, the coach, and school administration.
4. Being suspended from class automatically results in a player/group member suspension.

C. Extra Curricular Conduct:

1. I will conduct myself at practice and at games in a manner that brings respect to myself and Kelliher School.
2. I must not break school or team rules and I understand that decisions of the coach/advisor and administration are final.

3. I must assume a responsible attitude for my social behaviors that affect my representation of Kelliher School and my performance on the team.
4. I must always exhibit sportsmanlike behavior and demonstrate Cobra Pride.
5. Once a commitment to the school team has been made, a student must follow through with this commitment. It is unfair to other teammates/performers as well as coaches/advisors, and those players/performers who failed to earn a place on the team, to quit during the year.

I realize it is an honor and a privilege to play/perform for an activity representing Kelliher School and will do so to the best of my ability.
