*"Learning Together"*

October 25, 2018

Dear Parents/Guardians,

During a recent inspection of the school by Prairie Valley School Division's Superintendent of Project Management it was noted that there are a number of microwaves in the school hallways. According to the National Fire Code and the School Fire Safety Guide:

"Cooking appliances cannot be used in classrooms or hallways. Microwaves, hot plates and other cooking appliances must be used only in rooms or areas set aside for cooking."

The safety of the students and staff is of the utmost importance and for this reason we will be removing the microwaves from the hallways in our school as of November 1st. Unfortunately, we do not have any designated cooking areas or space to create a designated cooking area for the students to use microwaves so this will no longer be an option for the students.

We understand that this may be a difficult transition for students that are used to warming up left overs but it is our responsibility to comply with these regulations. Thank you in advance for your understanding and support.

Warm regards,

Cheryl Blomquist  
Principal  
Sedley School
